## Press Release

### Greece in Crisis a call of Prayer

People in Greece are apprehensive and worrying as the overall situation is extremely difficult creating tension and confusion even among believers.

Our small Evangelical community does not take sides in political matters, as this could bring about divisions in the body of Christ. The overwhelming majority agree that the future of Greece is in the Euro zone.

We all agree that Greece's participation in the European Institutions has so far been a real help and an agent for the promotion of religious liberties in our country.

We all realize that this is a very critical period for Greece. For this reason we have called for a national day of prayer and fasting **on 3rd of July, 2015** and we would like to extend this call to our European and World evangelical community with the following prayer requests:

- Pray for those suffering from poverty and unemployment along with the pressures of the crisis which affect all.
- Pray as the Evangelical churches try to be agents of hope offering acts of mercy to people in need.
- Pray for unity among believers in Greece... we do not want the political referendum to create conflicts among Greek people and especially among churches and believers.
- Pray for God's mercy upon the nation of Greece and for wisdom among the people and government officials.
- We praise the Lord for His Sovereignty and looking forward for His provision upon our people and our country.
